ENVIRONMENTAL/WASTE MANAGEMENT POLICY

ZAKHEM INTERNATIONAL CONSTRUCTION LTD shall protect and preserve the environment within its operation.

To achieve this:

- The workforce shall ensure that company operations do not have any adverse effect on the air, water, soil, plant and animals within work environment
- Waste receptacle shall be color coded
- All wastes generated when executing projects are collected, segregated, treated and disposed off in such a way as not to have impact on the environment
- Regular environmental/waste management audit shall be conducted
- All operations shall be carried out in conformity with National laws and regulations on environmental sustainability
- Daily clean-up shall be conducted to ensure all debris and obstructions are removed to prevent injuries to lives and preserve the order of the habitat
- At the completion of any activity, our ultimate goal is to leave the environment in a tidy and acceptable state
